SUMMARY

Full-stack software developer with experience building production-grade web and mobile applications, enterprise systems, and SaaS platforms using React, Next.js, React Native, Node.js, and PostgreSQL. Demonstrated leadership in managing cross-functional teams and leading technology initiatives serving 300+ students, with a passion for building scalable software that solves real-world problems.

EDUCATION

Ateneo de Zamboanga University
Bachelor of Science in Computer Science

La Purisima St. Zamboanga City 7000

WORK EXPERIENCE

Symph Inc.

Software Developer Intern

Cebu I.T. Park, Barangay Apas, Lahug, Cebu City

May 2026 – July 2026

- Enhanced and maintained production-ready web and mobile applications using **Next.js, React Native, TypeScript, REST APIs, and RevenueCat**.
- Built a high-performance **XLSX bulk import module** capable of processing **100,000+ records**, implementing hierarchical parent-child data mapping, validation, and optimized import workflows.
- Resolved application defects, integrated new mobile features, and enhanced payment and subscription flows to improve application stability and user experience.

Center for Information Technology Services AdZU

System Developer (Contract)

La Purisima St. Zamboanga City 7000

July 2026 – September 2026

- Selected for the **CITS Active Learning Program (ALP)** to develop and deploy production-grade software systems supporting Ateneo de Zamboanga University.
- Designed and developed a **Thesis Inventory Management System** that digitized and centralized **500+ thesis records**, improving searchability and access for students and faculty.
- Currently developing enterprise web applications that streamline **academic approval workflows, document processing, and faculty subject and teaching load scheduling**.

PROJECTS

[Debately](#)

Founder & Full-Stack Developer

April 2026

- Built a **free-to-use SaaS platform** for debate tournament management, automating multi-phase registrations, participant management, finance tracking, and tournament operations for events supporting **80+ teams, 240+ participants, and an estimated ₱84K+ in registration transactions**.
- Designed a configurable **3-phase registration synchronization system** that integrates Google Forms, Google Sheets API, and Supabase to automate roster reconciliation, payment tracking, judge-rule compliance, and administrative workflows, with plans to **open-source** the platform for debate organizations.

[COA-Z Organizations Directory & Content Management System \(CMS\)](#)

July 2026

Council of Organizations of Ateneo de Zamboanga

- Developed the official COA-Z Organizations Directory, a centralized platform that enabled **6,000+ students** to discover and engage with **40+ student organizations**, streamlining organization discovery during Recruitment Week and beyond.
- Engineered a content management system (CMS) that empowered COA-Z administrators to efficiently publish announcements, stories, and organizational updates through a scalable, responsive web application, improving content management and campus-wide communication.

AWARDS & ACHIEVEMENTS

2026 - 2027

- Regional Winner & National Finalist, CHED Tourism Start-Up Challenge 2025** — Lead founder, led the development of **Anyam**, securing **₱250,000** in implementation funding for a tourism technology platform promoting underrepresented destinations.
- 2nd Place, Build with AI Hackathon 2026** — Developed an AI-powered solution addressing fast fashion in a competitive inter-university hackathon.

SKILLS

- Tech Stack:** TypeScript, React, Next.js, React Native, Node.js, PostgreSQL, Firebase, Docker
- Software Engineering:** Full-Stack Development, API Development, Database Design, System Architecture
